DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-18, drawn to a data compression method, classified in class 707, subclass 101.

- SL* II. Claims ¹⁹⁻²⁵~~19-24~~, drawn to a method of watermarking compressed data, classified in class 713, subclass 176.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. Claims 1-18 deal with the aspects of providing a compression method and claims 19-25 disclose a method for adding watermark security to a compression method, Claims 1-18 displays a separate utility of a system in which the overhead of adding a watermark is not necessary.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.
